Compliance and SOW review

A consolidated procurement review packet. It does not establish eligibility, authorize a direct award or replace solicitation-specific due diligence.

05 Review framework - no certification

FAR and solicitation review

Use the applicable solicitation, incorporated clauses and agency requirements to assess participation. FAR 9.1 addresses contractor responsibility; this packet does not make the contracting officer's determination or guarantee federal, state or international eligibility.

Quality frameworks - ISO/CIMS

ISO quality-management resources and ISSA CIMS may inform project planning when applicable. No ISO or CIMS certificate, audit or third-party approval is included or claimed. Confirm the required edition, scope and issuer evidence before representing certification.

Digital intake and quarantine

The current platform implements session/CSRF checks, private attachment quarantine and digest-bound release rules. A live scanner is not connected. TLS 1.3, encrypted-at-rest storage, comprehensive security certification and a certified vault have not been established by this dossier.

06 Documented and proposed SOW workflow

01 - Structured intake

The deployed four-step RFQ portal captures authorized contact, scope, location, dates and optional solicitation/NAICS details. The backend emits a ticket only after confirmed submission.

02 - Proposed execution plan

Before any offer, define task frequency or quantities, authorized access, mobilization assumptions, equipment, supplier responsibilities and project-specific obligations.

03 - Acceptance and change control

Agree measurable acceptance criteria, inspection evidence, correction procedures and authorized changes in the actual contract. No executed SOW compliance history is claimed.

Evidence and contact channels

A consolidated procurement review packet. It does not establish eligibility, authorize a direct award or replace solicitation-specific due diligence.

07 Evidence to complete for a specific solicitation

- Official Texas entity formation/status record and authorized signing evidence.
- Current SAM.gov status and actual UEI/CAGE identifiers, where required; none is verified here.
- Issuer-backed WOSB, EDWOSB, MBE, DBE, ISO or CIMS documents only if actually held and relevant.
- Applicable insurance, licenses, supplier commitments, resources, references and contractual representations.
- Domain/mailbox control, provider delivery tests and a private scanner validation before advertising those services as live.
